WEEK 4

GOD'S GREATNESS

God is all-knowing.

Can I totally comprehend God's thoughts?

Romans 11:33 "O the depth of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out!"

This Week's Verse

Last Two Completed Weeks

The child is to say the last two *main* verses he/she has completed, and then the leader is to write those weeks in the stars provided.

Some people think they are pretty smart, but no one is smarter than God. God has never had to learn anything because He already knows everything. In fact, God is so smart, your head could hurt just thinking about it! Your verse teaches that God's wisdom and knowledge are deep and rich, and sometimes His ways are hard to understand. But just because God's knowledge is deep and His ways are hard to understand, does not mean that God is wrong—but the opposite. It probably means you need to trust God even though you don't understand. God knows what is best for you, and His plan is perfect. So, trust God; He is smart enough to know what is best for you.

This verse is an extra verse you can do after you finish this week's section.

How much does God know?

Psalm 147:5 "Great is our Lord, and of great power: his understanding is infinite."
